

VIZOO HOLOGRAPHIC

To conceive an unpublished video on all evolution and review of the Kuwait Oil Company and to broadcast it holographiquement one in the middle of the guests on prism of metres 5 of top...

What you are about to see are completely new inventions in advertising media, things that have never been seen before. One of them concerns how fiction can become a mind-boggling reality. Right before the very eyes of a stunned consumer audience.

We are an advertising film company, developing and producing new media with "edge". Something that has never been seen before.

For window shopping, events and out of home.

Our patented products are Cheoptics360™ - free floating video display, Free Format™ - "holographic" films and VideoLogo™ - live film inside a brand logo.

We deliver a complete package of hardware and film production.

Our passion is to be part of next generation innovation - being there, making a difference.

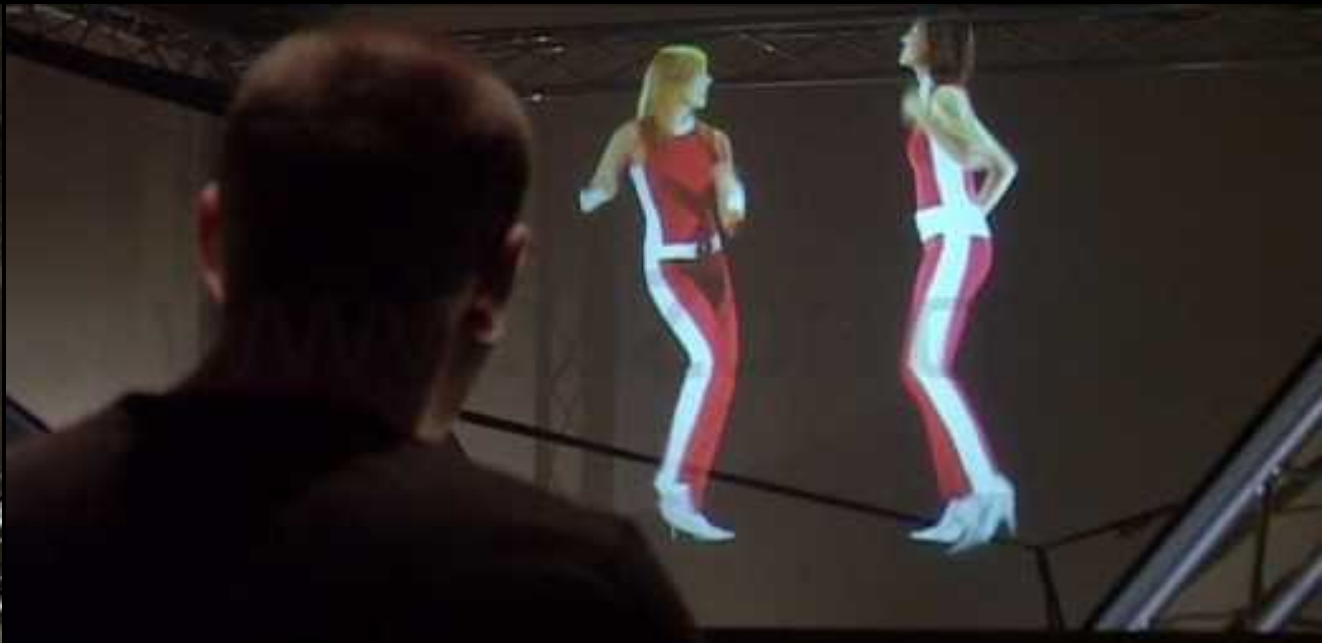

Our roots are in the film, advertising and music industry.

We could have chosen a more conventional path with our product line. We didn't. In fact, we ventured out where no one had been before. We chose the most difficult path imaginable. We did, so you don't have to.

The results were Cheoptics360™, Free Format™ and VideoLogo™, inventions by viZoo. However, we are not stopping there - there is more to come

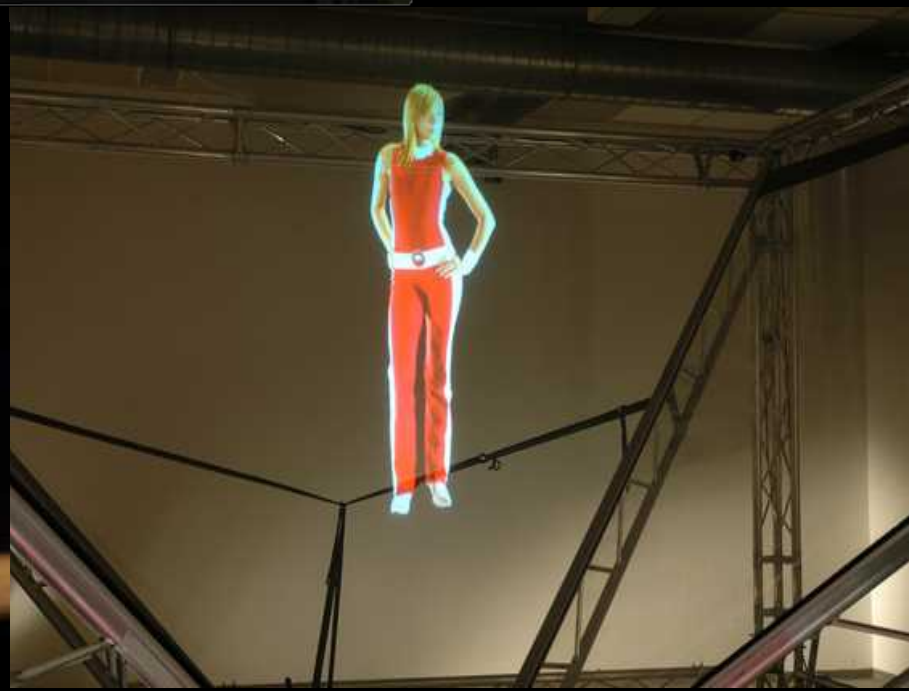

Cheoptics360™ XL Showreel

This is a documentation of the 5x5 meter Cheoptics360 in our showroom. No special effects or compositing has been used editing this movie. This is the real thing.
